

THE NEW ISBT 128 LABEL

Unit Number

The unit number is made up of several composite pieces:

- The facility identification code (W0394)
- The year of collection of the donation (08)
- A six digit serial number (000001)
- Two digit flag character (turned 90 degrees) 8
- A check digit. V

The donation will be identified using the sum of these pieces

If manually recording the unit number for documentation all 16 characters must be recorded. The unit number may be manually recorded without the spaces or 90 degree flags.
